Explain and discuss the SRS document

The presented members read their task and the rest members give some points to modify and some hiding points to clarify. In the end, the modification points were collected and will be modified before the final submission in GitHub.

Today's outputs of the meeting:

1. Raghad Al-Yaeesh will modify some points in the use case.
2. some modifications in functional requirements will change based on the use case.
3. some modifications in nonfunctional requirements will change based on the use functional requirements.
4. We determined that the next meeting will be held on October 12, 2023
